Clear browsing data...

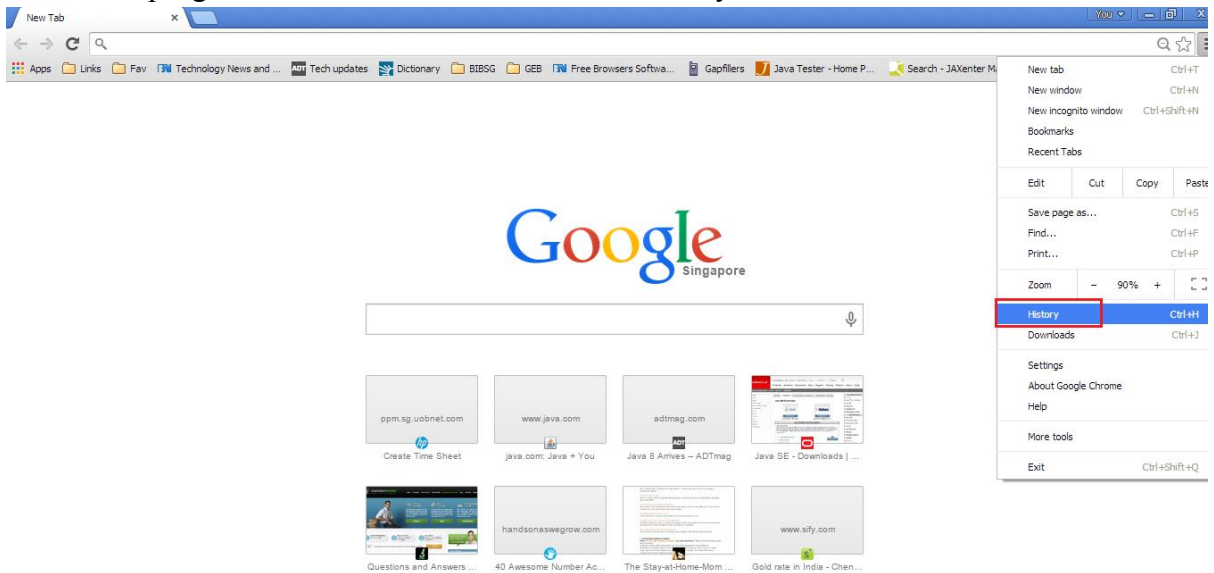

Google Chrome may use web services to improve your browsing experience. You may optionally disable these services. [Learn more](#)

- Use a web service to help resolve navigation errors
- Use a prediction service to help complete searches and URLs typed in the address bar or the app launcher search box
- Predict network actions to improve page load performance
- Automatically report details of possible security incidents to Google
- Enable phishing and malware protection
- Use a web service to help resolve spelling errors
- Automatically send usage statistics and crash reports to Google
- Send a "Do Not Track" request with your browsing traffic
- Enable "Ok Google" to start a voice search

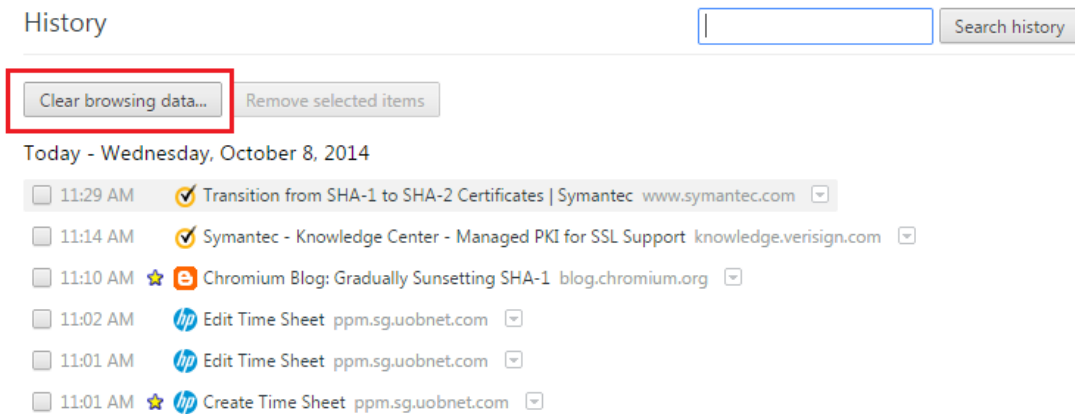

#### 4. Click on “Clear browsing data”

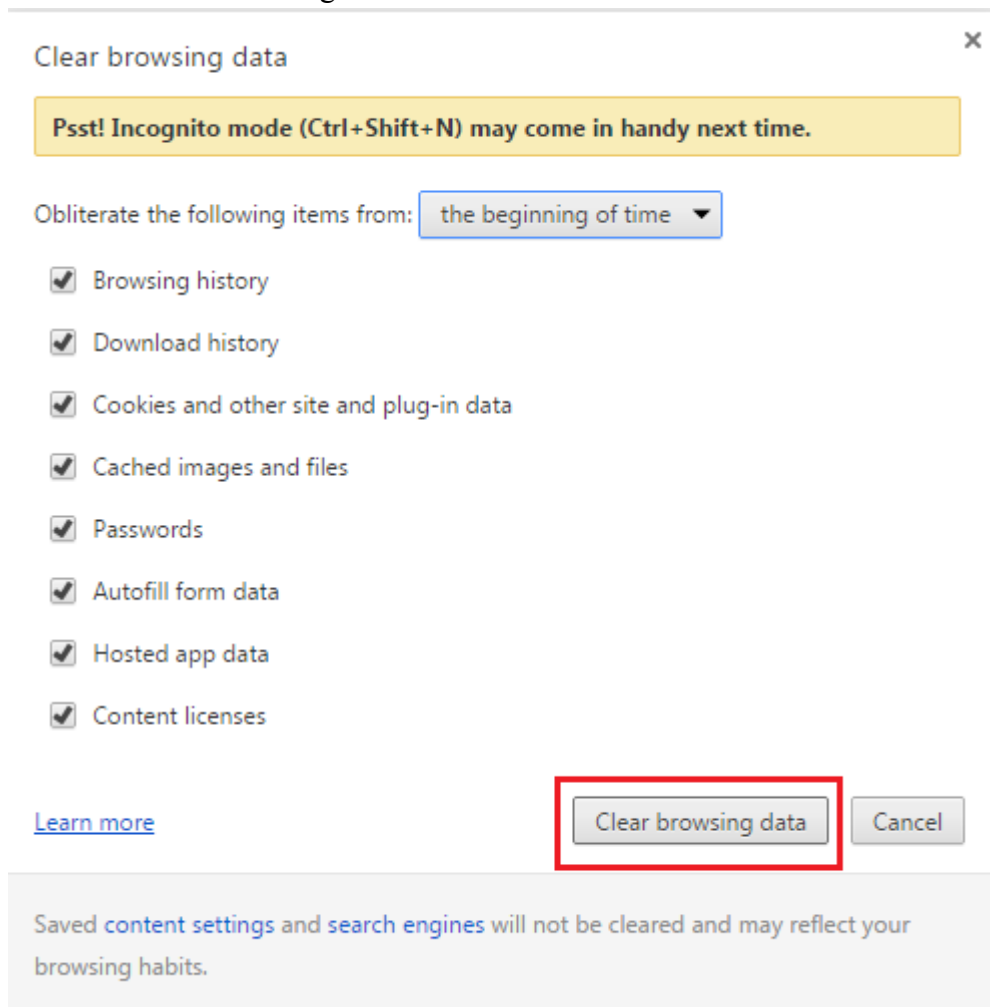

#### 5. Click on top right corner of the menu to choose “History”

6. Click on “Clear browsing data”.

7. Click on “Clear browsing data”.

8. Close and open the browser again.
